SUMMARY

Full Stack Developer and Software Engineering undergraduate (BSSE 2022–2026) specializing in React, Next.js, Angular, and ASP.NET. Experienced in building modern, responsive web applications and cross-platform mobile apps from front-end to back-end. Delivered production-grade projects including a review management platform, an agri-tech mobile ecosystem, and a crypto exchange interface. Currently completing an ML-based Final Year Project (DevSkill Tracker + AI vs Human Code Detector) with an end-to-end pipeline and reporting.

EDUCATION

Pak-Austria Fachhochschule (PAF-IAST)

Bachelor of Science in Software Engineering

- Relevant Coursework: Algorithms, Database Systems, Software Architecture, Machine Learning.

Punjab College

FSc Pre-Engineering

Haripur, KPK

2022 – 2026

Mandi Bahauddin, Punjab

2020 – 2022

EXPERIENCE

E-stamping Office (Arfa Karim Tower)

Jul. 2024 – Aug. 2024

Web Developer Intern

Lahore

- Built and maintained responsive web pages using HTML5, CSS3, and JavaScript; improved cross-device usability.
- Implemented client-side form validation and interactive UI logic, reducing invalid submissions and improving user flow.

- Assisted in ASP.NET web application development, contributing to feature integration and maintenance tasks.

Techno Buzz

Oct. 2023 – Aug. 2024

Technical Content Writer

Remote

- Authored SEO-optimized technical blogs and articles on emerging software technologies, driving organic traffic.
- Collaborated with the web development team to align content with software updates, design, and user experience goals.

Dextrologix Pvt Ltd

Jul. 2023 – Sep. 2023

Front-End Developer Intern

Lahore

- Translated UI/UX wireframes into responsive, pixel-accurate web pages using HTML5 and CSS3; resolved cross-browser compatibility issues.
- Implemented interactive JavaScript features to enhance user experience across devices.
- Used Git/GitHub for version control, branch management, and collaborative pull request workflows.

PROJECTS

DevSkill Tracker | *Next.js, Python, ML, Firebase, AI*

FYP

- Built an AI-powered skill tracking platform enabling developers to assess, track, and improve technical skills with a leaderboard system.
- Integrated two ML models: a competency/progress Skill Tracker and an AI-vs-Human code authorship detector.
- Designed an end-to-end pipeline: data input → preprocessing → inference → visualization/reporting.

GoHighReview | *Next.js, Supabase, TypeScript*

- Developed a modern review management platform for businesses to collect and showcase customer reviews, boosting online credibility.
- Integrated Supabase for real-time database and authentication; built a fully type-safe codebase using TypeScript.

Zaraiverse | *React Native, Expo, Firebase, Axios, i18n*

- Built a Pakistan-focused agri-tech mobile ecosystem connecting farmers, agricultural experts, and sellers with role-based access.
- Implemented bilingual (English/Urdu) support via i18n, real-time Firebase Auth/database, and a built-in marketplace.

Apayments Network | *React, API Integration, Crypto*

- Built a cryptocurrency platform integrating dual APIs for seamless real-time buying and selling functionality.

Megaohm | *E-commerce, AI Chatbot, Responsive*

- Developed a modern e-commerce platform for electrical tools featuring an AI-powered chatbot integration for customer support.

Blog Website | *Next.js, Tailwind CSS, Vercel*

- Built and deployed a clean, modern blog platform with dynamic routing using Next.js and Tailwind CSS; hosted on Vercel.

Personal Portfolio – Client | *React, CSS Animations, Vercel*

- Developed a client portfolio website using React, featuring smooth CSS animations and deployed on Vercel.

Book Website | *HTML, CSS, JavaScript*

- Built a responsive book showcase website with theme toggle, smooth navigation, and a clean, accessible UI.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, C# (ASP.NET), HTML5, CSS3

Frameworks & Libraries: React, Next.js, Angular, React Native, Expo, Bootstrap, Tailwind CSS

Backend & Databases: ASP.NET, Firebase, Supabase, REST APIs

ML/Data: Machine Learning, Model Training & Evaluation, Data Preprocessing, Feature Engineering

Tools & Platforms: Git/GitHub, Google Colab, VS Code, Android Studio, Vercel, Excel
